

How GCPay Works with Sage Intacct Construction

- Pulls contracts from Sage Intacct Construction into GCPay
- Pulls approved change orders from Sage Intacct Construction into GCPay
- Validates current contract amounts between GCPay and Sage Intacct Construction
- Pushes approved applications for payment from GCPay into Sage Intacct Construction

How the Integration Reduces Construction Risk

- Ensures project reports + financials are accurate
- Lien waiver management reduces liability risk and keeps documents organized
- Enhances subcontractor compliance requirements, forcing subs to provide required documents prior to submissions
- Controls change orders ensuring only approved change orders are billable by contractors
- Provides automated notifications to project management team

GCPAY and Sage Intacct Construction
