

Sage Intacct Integration: DATABASICS Time

DATABASICS has partnered with Sage Intacct to provide a pre-built integration in their marketplace, helping you make the most of flexible approval structures, automated policy management, and flexible reporting periods.

Sage Intacct customers can use either DATABASICS Time to automatically export data as well as all relevant code structures and employee information to Sage Intacct. This bi-directional data flow eliminates inconsistencies between the systems and allows customers to fully leverage the combined strengths of Sage Intacct and DATABASICS. The integration is beneficial to a broad range of organizations, but it is of particular value to those with project billing or cost/fund accounting requirements, such as professional services firms, nonprofits, and federal contractors.

Track and manage your time, labor costs, and leave with ease and accuracy with DATABASICS Time. DATABASICS Time is a simple solution for tracking time, labor costs, and leave. It's built with you in mind, offering powerful features that are easy to use and highly efficient. We believe in the power of better solutions driving better decisions for better results. And we're committed to providing smarter, simpler, better solutions so you can spend less effort on administration—and more time getting down to business.

Key Benefits of DATABASICS Time:

- ➔ Multi-timesheet reporting periods (bi-weekly, monthly, etc.)
- ➔ Employee leave management
- ➔ Mobile apps for entry and approvals anywhere
- ➔ Support for simple or complex labor and activity tracking
- ➔ Employee cost effective rate
- ➔ Notifications of missing timesheets, floor checks, etc.
- ➔ Enforced business policies and DCAA compliance
- ➔ Manage complex workflows simply
- ➔ Report on any aspect of your timesheet process, instantly
- ➔ Fully functional GPS capabilities
- ➔ Clock in/clock out is accurate and easy to use

"DATABASICS is a fantastic addition to the Intacct Marketplace. The integration of DATABASICS employee reporting and management automation technology with Intacct's best-in-class accounting software will be a valuable solution to our customers and their needs." - Former VP of Business Development, Sage Intacct
