

**AUTOMATE PROCESSING OF
SUPPLIER INVOICES**

LIFE PLAN COMMUNITIES

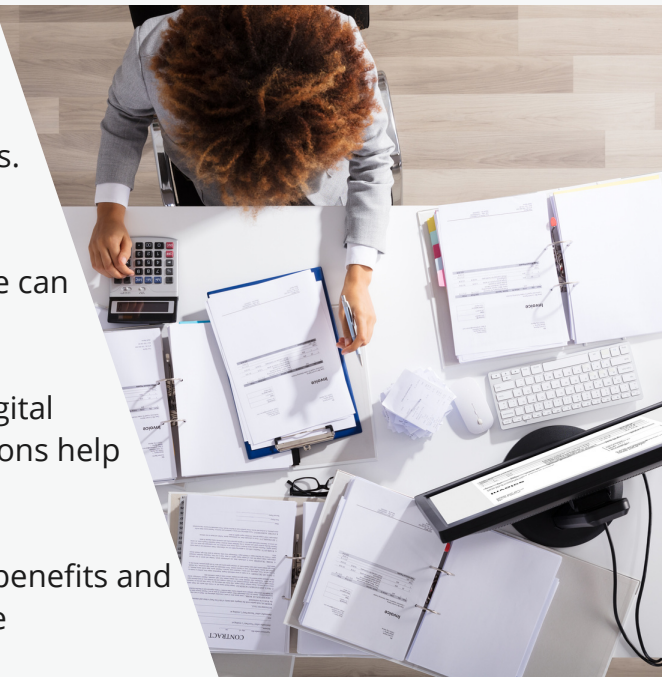

CCRCs are typically expensive to operate due to the broad spectrum of services that can be provided from independent living to skilled nursing facilities.

Balancing revenue, operating costs, and capital expenditures while still providing excellent care can be challenging.

Digital technologies such as telemedicine, digital health records, and other tech-based solutions help improve care and efficiency.

You can also unlock significant financial benefits and productivity gains using supplier invoice automation.

PROCESS ALL TYPES OF INVOICE INCLUDING:

- **Catering, daily consumables, medical consumables**
Auto-match against purchase orders for price and quantity
- **Medication, living aids, medical devices**
Auto-match against purchase orders or split between house and resident GL codes
- **Contract medical staff, care assistants, or other staff**
Workflow to approve invoices for hours billed
- **Services and overheads**
Workflow for approving entertainment, linen, insurance, and overheads
- **Utilities, repairs & maintenance, phone**
Auto-split based on unit number, meter reading, number
