

Unlock Real-Time Project Visibility Across Teams with Monday.com

The integration between Sage Intacct Cloud ERP and Monday.com—bridges the gap between operations and project management. With a bidirectional real time sync from Sage Intacct to Monday.com, your teams can stay aligned, informed, and agile. This integration ensures that project data flows effortlessly from Sage Intacct into your collaboration platform, eliminating manual updates and reducing costly delays.

How It Works

Real-Time Sync

Updates made in either Sage Intacct or Monday.com are instantly reflected in both systems.

Smart Updates

Only relevant fields are updated—no disruption to existing workflows.

Bidirectional Data Flow

Data from Sage Intacct and Monday.com sync seamlessly behind the scenes, ensuring both systems stay aligned.

LBMCTECH Technology Solutions, a top 10 Sage reseller, is 100% committed to excellent client experience. If you are unsatisfied with your experience, we will make it right. Guaranteed.

Key Benefits

Accurate Project Tracking

Always up-to-date task statuses in Monday.com.

Improved Collaboration

Keep teams aligned—even with last-minute changes.

Reduced Manual Entry

Eliminate double data entry and reduce human error.

Faster Decision-Making

Real-time visibility into project progress and bottlenecks.

Streamlined Workflows

Update only what's needed, when it's needed.
