- ✓ Custom Report builders

The Trayd Difference

"We were with ADP before, which had zero flexibility and a lack of solid customer service. Trayd is a newer player in the market, but they have been excellent so far. I can honestly say I have never had better customer service with any company I have ever dealt with"

Adam Burrows, Controller, M. O'Connor Contracting

"What took me 8-10 hours to complete now takes an hour."

Ray Scheer, Project Manager, Titan Structural Group

"Its incredible what you guys are doing. I don't think people understand how much work goes into tracking payroll in construction but you guys do"

Bryan Girsch, Owner, Wohl Diversified Services
