

ENVI

HEALTHCARE MATERIALS MANAGEMENT MADE EASY

Envi is a complete procure-to-pay software that uncovers savings through a customized formulary built from your GPO and local contracts. With Envi you will gain unprecedented control, automation and visibility into the full range of your supply chain. Depending on your needs, we have procurement experts and analysts ready to help automate your inventory management and purchasing operations, but it doesn't stop there. Our advanced analytics decode your supply, financial and operational data to make new discoveries that cut costs.

A smarter supply chain means your organization spends less time managing supplies and more time doing what matters most – caring for patients.

DISCOVER INCREASED VISIBILITY AND ENHANCED SAVINGS THROUGH:

Process Automation

- Reduce PO processing times by 50%
- Barcode scanner integration with physical count, product usage, purchase orders and more

Product Cost Reductions

- Price parity and product formulary compliance reduces spend
- Contract tracking and compliance reduces spend by an average of 5-10%

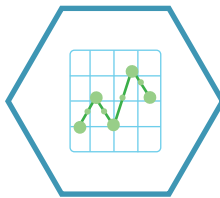

System Integrations

- Compare PO-Receipt-Invoice electronically to ensure price and quantity accuracy
- Eliminate manual entry into financial system by integrating with Envi

Inventory Management

- Track on hand inventory at the location level
- Reduce on hand inventory by setting par levels
- Reduce product expirations

Reporting and Analytics

- Build visibility into purchasing trends and inventory levels
- Identify savings and new contract opportunities

OVER 100 EDI CONNECTIONS

EDI makes purchasing easy. Envi integrates directly into vendors ordering systems so your purchasing happens directly within the application. Your days will no longer be filled with shopping multiple websites, picking up the phone and calling an order in or even faxing orders.
