

Why FinQuery?

FinQuery's accounting automation and contract management platform is built to enable accounting and finance teams to save time with confidence.

Automate accounting for leases, prepaid expenses, and accrued expenses with a single, CPA-approved platform that provides the visibility you need for accurate budgeting and forecasting.

Confident Compliance

FinQuery automates accounting for leases, SBITAs and prepaid and accrued expenses, eliminating manual errors and streamlining the audit process. Built by accountants for accountants with CPA-approved calculations you can trust.

Financial Insights

Housing all of an organization's leases, vendor contracts, and related prepaids and accruals in one solution improves visibility, streamlines processes and enables significant cost savings.

Operational Efficiency

AI assistance, automated alerts, and audit trails within the solution save time by allowing you to account for your leases, prepaids, and accruals simply and accurately.

4.8/5

Average Rating

Automated accounting. Streamlined contract management.

Lease Accounting

#1 lease accounting software in customer satisfaction for 3.5+ years

Mandatory Compliance

LeaseQuery simplifies accounting for all leased assets and SBITAs to facilitate compliance with ASC 842, IFRS 16, GASB 87 & 96, SFFAS 54, and FRS 102.

Superior Support

Technical accounting expertise across the organization for industry leading support — including daily office hours staffed by certified lease accounting analysts.

Real World Scenarios

The features you need to handle the complex scenarios of ongoing compliance including catch up adjustments, point in time reporting, impairments, and variable payments to name a few.

Prepaid & Accrual Accounting

Accurate, automated accounting to eliminate up to 80% of manual effort

Accelerated Close

Effortlessly generate expense schedules, amortization schedules, journal entries, and roll forward reports saving time and stress.

Flexible Data Entry

Upload contracts or invoices. Proprietary AI pulls key information, including payment details.

Simplified Audits

Storing documents and accounting for prepaids and accruals in a single subledger with a detailed history streamlines your audit.

Contract Management

AI-enabled, post-signature contract management purpose-built for Finance and Accounting teams

Easy Contract Entry

Our AI makes contract entry quick and easy, abstracting key data into a central repository for analysis and reporting.

Streamlined Budgeting and Forecasting

Accurate reporting of upcoming payments for efficient forecasting and budgeting.

No More Surprises

Automated alerts keep their team on top of important dates to proactively manage their largest areas of spend.
