

IMVIZE Automates Business Processes by Integrating Sage Intacct With UKG Ready

If your company wants to drive results for business operations and employees, using Sage Intacct for Enterprise Resource Planning (ERP) alongside UKG Ready for employee management is a strategic choice. But if your business wants to simplify its maintenance of these two best-in-class systems, connecting them via an API integration is key.

Make your technology work smarter, so your employees don't have to work harder.

IMVIZE can save your team time, streamline processes, and improve accuracy across both systems with our Sage Intacct and UKG Ready Integration Services. This managed solution boosts productivity for Sage Intacct and UKG Ready users by synchronizing data between both systems.

With this integration, IMVIZE will help...

- Make your team's jobs simpler
- Sync both systems automatically (Projects, payroll, journal entries, and timesheets)
- Eliminate dual data entry
- Easily track time against projects

Pricing

\$4.00/Per Employee
Per Month (PEPM) ¹ ²
