10 key benefits

So what's the problem?

Accounts Receivable (AR) management can be a huge challenge with progress traditionally hampered by error-prone manual processes that negatively impact operations, cash flow, decision making and productivity.

40%

of AR teams' time is spent on inefficient manual processes

10+ hours

each week goes on repetitive, tedious tasks

48%

of SMEs use paper invoice receipts compared with only 22% of enterprise businesses

87%

of businesses have their invoices paid after the due date

35%

of invoices are paid more than 30 days after the invoice due date

How can Alevate AR help?

Seamlessly integrating with your ERP system, our cloud-native solution automates and transforms the AR process.

With Alevate AR, you can reduce manual tasks, leverage our advanced AI and machine learning capabilities and accelerate cash flow to achieve maximum efficiency and unmatched customer satisfaction.

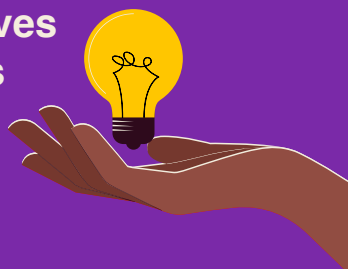

Leveraging advanced AI and machine learning, Alevate AR provides real-time visibility into critical KPIs like DSO, enhances cash flow and optimizes working capital.

EIPP ensures timely invoice delivery, automated dunning improves follow-up efficiency, and customer payment portals accelerate payments and reduce errors. The prompt resolution of disputes also facilitates smoother transactions.

Collections forecasting uses predictive analytics for accurate clearing date predictions, enhancing cash forecasting and working capital management.

The result?

Adding efficiency and increasing productivity to your operation, Alevate AR gives your business the edge.

Achieve more with Alevate AR

Free up additional cash of 8-12% of working capital needs for the month

20-25% time saved per week in admin tasks

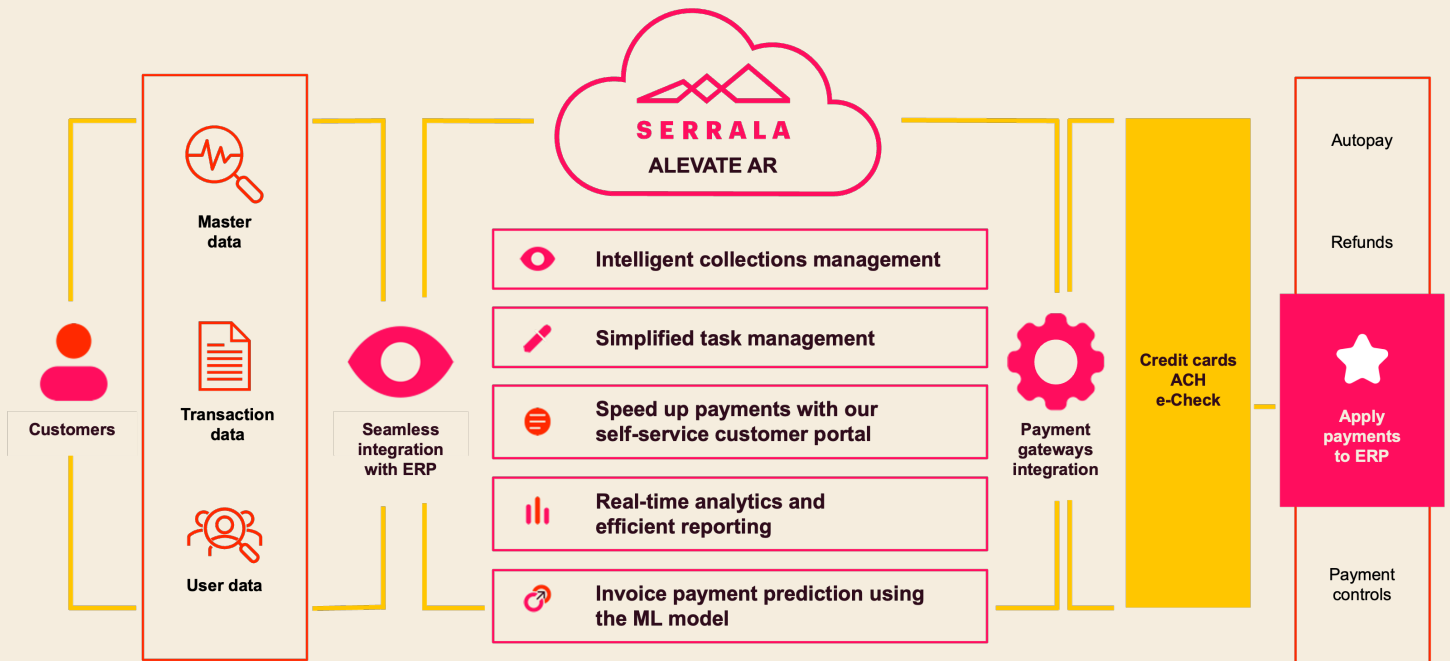

Reduce bad debt by 10+%

Reduce DSO by 10-30+%

How it works

The Alevate AR advantage

Advanced analytics for proactive management

Improved customer and internal collaboration

Advanced automation for efficiency

Centralized visibility for enhanced productivity

Flexible workflows with minimal IT dependence

Best-in-class features

Intelligent collections management

Accelerate collections using customizable automated workflows, leverage machine learning to predict expected payment dates, and track invoices.

Simplified task management

Easily assign and manage tasks, set up task reminders with customers and invoices, and view activity logs associated with each customer and invoice.

Secure self-service customer portal

Give your customers 24x7 access to their accounts, receive payments with just a click of a button, and do cash posting automatically.

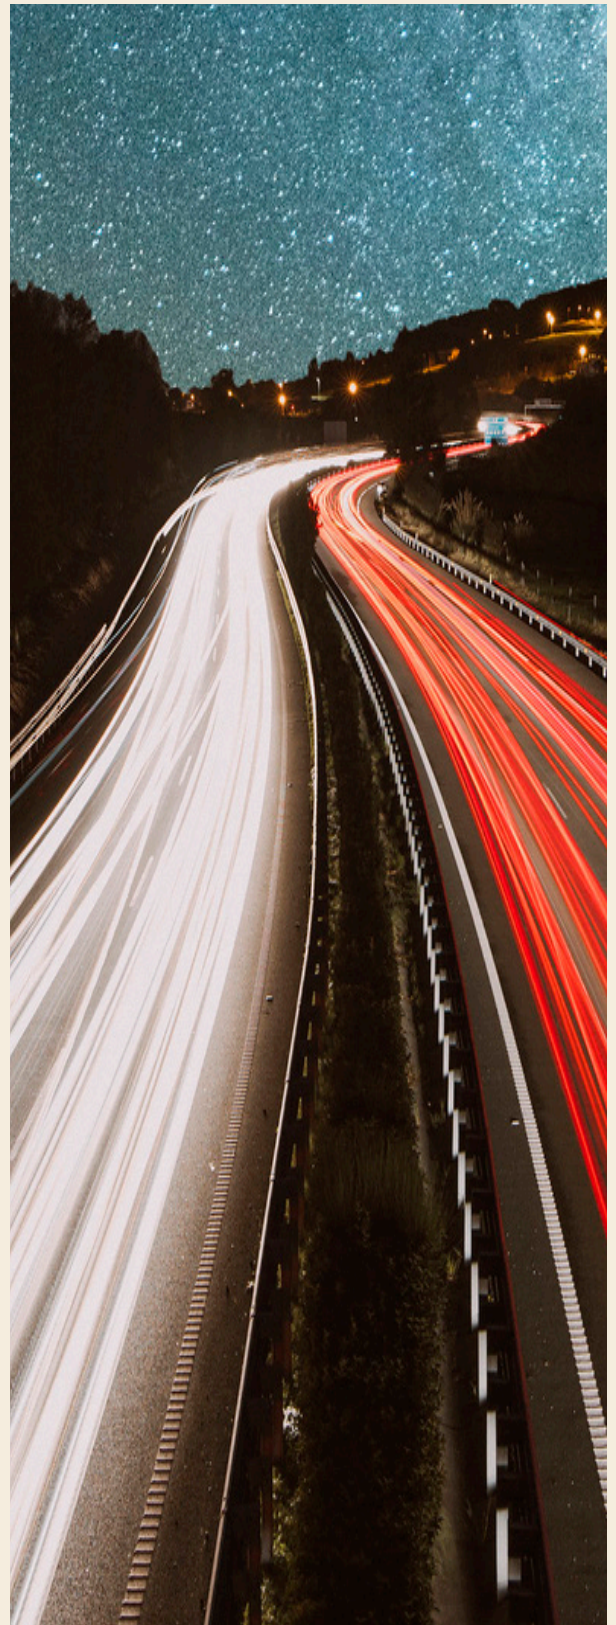

Real-time analytics and efficient reporting

Create and share reports with different stakeholders, export in PDF or Excel formats, and set user permissions for access.

Seamless integration

Easy integration to your accounting or ERP system, cloud-native architecture for seamless connectivity, and fast implementation.

10 key benefits

01 Less billing support tickets

02 Boost productivity

03 Reduce Days Sales Outstanding (DSO)

04 Collect cash faster

05 Optimize working capital

06 Resolve disputes sooner

07 Reduce paperwork

08 Predictive forecasting

09 Faster decision making

10 Free up time for strategic initiatives

Customer verdict

 *“The largest impact this solution has had on our business is giving our customers the ability to download statements and invoices on demand which saves our AR team a tremendous amount of time.”*

Chris T, Division Controller

 *“Excellent tool to compile statements and invoice copies in one email, and it makes work more efficient.”*

Arjay L, AR Manager
