

# HYPHEN SOLUTIONS + SAGE INTACCT CONSTRUCTION

The Best-In-Class ERP Solution for Builders

Builders

## Accounting + Operations

Accounting and GL | Accounts Payable | Automated Payments | Bid Management | Construction Management | CRM (Customer Relationship Management) | ePayments | EPOs (Extra Purchase Orders)/Variance POs | ERP (Enterprise Resource Planning) | Estimating | Job Cost | On-Premise | Purchasing | Real-Time Communication | Reporting | Sage 300 CRE Integration | Sage Intacct Integration | Sales | Scheduling Dashboards | Smart Assemblies | Takeoffs | Warranty

## An Integrated, Comprehensive ERP Solution for Home Builders

Hyphen HomeFront is a fully integrated Builder ERP solution that empowers Home Builders to manage the entire build process—from sales and CRM to service and warranty—all within one easy-to-use system, without replacing your existing accounting software.

This best-in-class, on-premise ERP supports complex business models through a robust network of top-tier partner integrations. Hyphen HomeFront seamlessly integrates with **Sage Intacct Construction**, **Sage 100 Contractor** and **Sage 300 CRE**, ensuring immediate and accurate sharing of customer and cost information across all departments within a Builder's organization.
