

Sage Intacct Construction

Trusted cloud accounting software built on the foundation of over 50 years of construction experience.

Accelerate your business with the only cloud-native solution that pairs decades of construction experience with the largest partner network in the industry.

We built Sage Intacct Construction to take the pain and inefficiency out of managing finances. Our solution delivers customizable reporting features, multi-entity consolidation, a dimensional general ledger, comprehensive job costing, automated WIP management, easy-to-use dashboards, and much more.

“All the things that are nuanced to construction accounting are best-in-class with Sage. We hit the ground running and took advantage of it immediately.”

— Julie Strong, CEO, C1S

As the first and only AICPA-preferred accounting solution, it's no surprise that the industry considers Sage the #1 provider of construction finance software — trusted by over 50,000 companies like yours.

- Easily track and measure financial performance with real-time visibility, reporting, and insights accessible anytime, anywhere, and from any device.
- Drive up to 25% increased profit with on-demand job costing, integrated payroll, customizable reports, and automated workflows.
- Experience the most powerful work in progress (WIP) solution on the market, transforming WIP reporting for contractors with unmatched efficiency and precision.

Sage

Improve efficiency

Automate AP/AR processes. Gain 20-40% in work efficiency.

Streamline month-end close time

Reduce average month end close time by 25-50%.

Empower your finance team

Minimize busy work. Increase time spent on analysis and business strategy by 25-75%.

Take control of project finances with real-time data

Construction leaders need visibility into financial and operational metrics to make timely, data-driven decisions for budgets, job progress, staffing, subcontractors, and more. With on-demand reporting, you can measure your project's financial and operational performance, and compare outcomes against historical data. Every transaction in the system is tagged with dimensions, so finance teams can sort, view, filter, and report on the specific information they need, whenever they need it.

Thrive with a born-in-the-cloud solution

Say goodbye to the days of on-premises solutions and working off outdated information. As a pioneer in the cloud space, Sage Intacct Construction was built on a true cloud model. We deliver multi-tenant financial management, ensuring that all users are always on the same version with access to the most up-to-date information. No complicated and expensive upgrades required — ever.

Maintain flexibility and the power of choice

While our construction platform delivers the most comprehensive solution on the market, we know that software isn't one size fits all. We're committed to being an open platform and growing our ecosystem of integrated partner solutions like Procore, Autodesk Navisworks, and others. Our priority is to offer the power of choice — the simplicity to choose Sage's all-in-one solution, and the flexibility to select the right mix of integrated products that work for you.

The largest and most trusted partner network in the industry

We get it — taking the leap to invest in new software can feel overwhelming. Having a partner that understands how you do business is key to ensuring your success. We're proud to have built the largest and most experienced partner network in the construction industry, which means you'll have experts by your side during your software transition who have worked with companies just like you.

What makes our partners exceptional is their commitment to going beyond implementation by helping you meet your goals, sharing best practices, and accelerating your growth.

"I wanted to future-proof our business. Sage is on the forefront of AI in accounting, and with Sage Intacct Construction, we have the tools we need to get to where we want to be before we even realize we're ready. It's been phenomenal."

— Matt Andersen, CFO, Superior Masonry
