

Hybrent

Cloud-based inventory management, procurement, and reporting software purpose-built for acute and non-acute healthcare.

Streamline your purchasing and simplify invoice reconciliation.

In today's fast-paced healthcare environment, managing procurement and inventory manually isn't just inefficient—it's costly. Hybrent simplifies and automates the entire procure-to-pay process with a healthcare-focused solution that's as powerful as it is easy to use. From real-time inventory visibility to automated invoice reconciliation, Hybrent equips your teams with the tools they need to reduce waste, drive compliance, and gain full control over spend—across every facility, department, and vendor.

Key Features

Centralized Procurement

Maintain a controlled item master with preferred vendors and formulary items, simplify ordering for clinical staff, and manage approval workflows.

Advanced Vendor Connectivity

Set up EDI and non-EDI vendors to exchange order and invoice data in Hybrent, enable punchout compatible vendors, and apply rule-based privileges for controlled access.

Inventory Management

Track supply receipts with real time inventory values, manage transfers and cycle counts, scan products in and out, and monitor lot, serial, and expiration data.

Accounts Payable Automation

Digitally manage invoices with three-way match analysis, send approved invoices to accounting software, and apply automated GL coding.

Reporting and Data Analytics

Access prebuilt and customizable reports with Excel export, and detailed cost allocation by patient, department, physician, project, and more.

Barcode Scanning

Use barcode scanning to order and deplete inventory with tracking for lot number, serial number, and expiration date.

Mobile Application

Available on iOS, Android, and Zebra TC devices, the Hybrent mobile app delivers full ordering workflows, approvals, and inventory management on the go.

Contract Management

Store and organize vendor contracts with details for items, costs, tiers, and expiration dates.

Proven Results for Healthcare Providers

80%

reduction in manual invoice approval work

30%

cut in supply waste with real-time inventory tracking

1000+

customers realizing the results

Why Users Love Hybrent:

● Faster, Easier Ordering

Easily search and order supplies from all vendors in one centralized system, no need to jump between websites or catalogs.

● Real-time Inventory Visibility

Track what you have and where it is across all locations, reducing over-ordering and last-minute supply shortages.

● Mobile Convenience

Scan barcodes and manage inventory on the go using mobile devices—saving time for clinical staff and reducing manual entry errors.

Why Customers Love Procurement Partners:

● Expansive Supplier Network

Gain access to over 9,000 suppliers offering medical, food, office, maintenance, housekeeping essentials, and more, all in one platform.

● Dedicated Training & Support

From implementation to optimization, we deliver hands-on healthcare-specific onboarding, training, and support to ensure customer success at every stage.

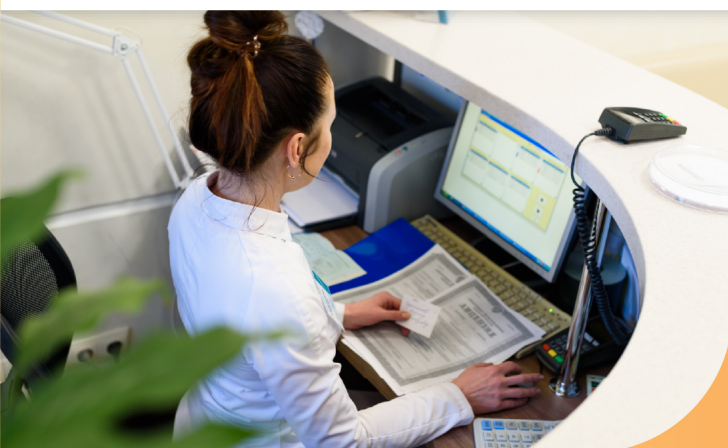

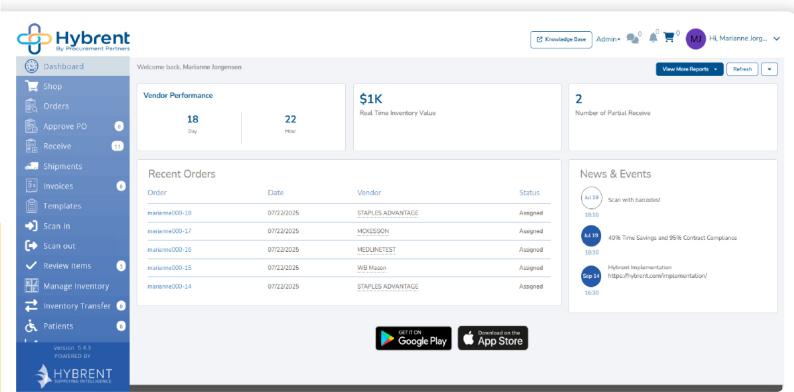

● Proven Healthcare Expertise

Procurement Partners brings deep healthcare experience across non-acute, acute, and post-acute care, enabling us to solve operational, compliance, and budgetary challenges.

Client Testimonial

"Previously, each facility might have worked with 15 different vendors, each with its own ordering process and separate website or portal. Now, everything is centralized in one place, eliminating the need to toggle between multiple browsers. This has given our teams valuable time back."

- Erin Rempala, NeuroPsychiatric Hospitals, Corporate Project Manager
