

# PLANET FITNESS MICHIGAN GROUP CASE STUDY

## Managing AP Across Multiple Locations

### EXECUTIVE SUMMARY

With fitness clubs and offices in two states, Planet Fitness Michigan Group needed to find a more efficient way of processing invoices. CFO Advisors, which had managed Planet Fitness Michigan Group's Intacct implementation, brought Uplevl's process automation and integration with Intacct to their attention. Uplevl then solved all their issues associated with the AP process.

### CHALLENGES

Planet Fitness Michigan Group has its AP and bill payment offices in separate states, plus its 24 fitness facilities in Michigan and Ohio. E-mailing and faxing invoices took time and was an informal, hard-to-manage process. Invoices went to the AP office, where they were stamped and coded. The owner had to review each paper invoice and then initial to approve. The invoices were then scanned and faxed to the bill payment office and the AP person filed her copies. The bill payment manager printed the invoices again and paid them, again filing the copies.

*Planet Fitness Michigan Group is a large Planet Fitness franchisee with 24 stores in Michigan and Ohio. Planet Fitness is the fastest-growing fitness franchise company in the United States*

## THE UPLEVL SOLUTION

“I knew I had found the right solution when I saw that Uplevl integrated with Intacct, could manage different document types, had an easy to use folder hierarchy, and had conditional workflows that could be customized to our needs,” said Michele Dussault, Controller of Planet Fitness Michigan Group.

“*Now we don't have to waste time e-mailing, faxing, and printing invoices. Our owner can view and approve each invoice and can do so from anywhere—home, traveling, or in the office.*”

- Michele Dussault, Controller  
Planet Fitness Michigan Group

With Uplevl, Planet Fitness Michigan Group was able to:

- ✓ Save time spent on e-mailing, faxing, and printing invoices
- ✓ Process invoices anywhere
- ✓ Simplify and automate the approval process
